Special Features

Rolling – Relaxing Fabric, Working Speed And Direction Are Adjustable, measurement, Digital Display, Automatic Edge Function. (Auto Edge Precision 4mm, Sensitivity reaches 98%)., With Tension Adjustable Rolling.

Special Features

- Full-Width Inspection Table with Lighting – clear visibility for defects.
- Automatic Edge Alignment System – keeps fabric edges straight during rolling.
- Accurate Length Measuring + Digital Display – stable meter counting for each roll.
- Tension-Free / Tension Adjustable Rolling – protects stretch & delicate fabric.
- Speed & Direction Adjustable – forward/reverse with inverter control (smooth running).
- Smoothing / Spreading Roller – prevents edge curling, best for elastic fabric.
- Optional Data Collection / 4-Point System – for defect grading & reporting.

Technical Specification

MODEL	DM-2100C
Voltage	AC220V/50-60Hz
Power	0.37KW
Max fabric roll diameter	400mm
Fabric width	2100mm
Automatic edge	Yes
Input fabric type	Rolling fabric
Output fabric type	Rolling fabric
Measurement	Yes,1000Y
Tension adjustable	Yes,simple,adjustable roller
Speed	Adjustable,0~70r/min
Combing fabric roller	Protect tension fabric
