

Features

Consumables are cheap, easy to buy and replace

High labeling efficiency and stable operation

High cost-effectiveness, saving the cost of marker paper, plotter consumables and labor costs for moving markers

Application

Automatic labeling equipment before cutting uses industrial printer to print thermal paper to complete the instant printing and labeling of cutting information.

Technical Specification :

Model	PGTP-160	PGTP-190	PGTP-210	PGTP-300
Labeling working width	1600mm	1900mm	2100mm	3000mm
Label supplies	Thermal Paper			
Supported printing formats	CUT/GBR/NC/TAC/DAT/PLT			
Label paper size	Large label 47*27mm		Small label 30x25mm	
Print resolution	203DPI			
Printing method	Thermal type (no ribbon required)			
Labeling speed	4s/label			
Fabric height	15c			
Labeling speed	4s/label			
Fabric height	15cm			
Air pressure	5bar			
Operating voltage	AC 220V 50Hz/60Hz
